

# HANNA KORVELA

## HANNA KORVELA

### A PIECE OF THE NORTH

Hanna Korvela is an internationally renowned Finnish rug designer. In her oeuvre, a modern design idiom is blended with the ancient Scandinavian tradition of weaving area rugs.

Hanna Korvela's rugs have become classics of 21st century interior design. They bear the freshness of northern forests, the gentle light of snow, and the depth of the starry sky. Pure, ecologically sustainable raw materials anchor them to nature. Their quality craftwork and visual rhythms make them stand out in an urban setting.

The backbone of the rug collection consists of woven cotton and wool-paper yarn rugs as well as tufted wool and rya rugs. In the new products of this season, familiar fabrics are made to look more beautiful than ever. You are warmly invited to our stand Hall 16 F50 to see rugs that live and breathe.

Human sensations and respect for them gave birth to Hanna Korvela Design in 1994. International breakthrough came in 1997, when Duetto carpet made of cotton and paper yarn was awarded with the prestigious "red dot: best of the best" award. Since then Hanna Korvela has received numerous awards and her products are presented in many of the worlds most esteemed interior design showrooms. Hanna Korvela signifies pure materials, clear pattern language, high quality and harmonic beauty, that surprises with its strength year after year, decade after decade.
